

From Exponential Splitting to Adaptive Splitting and Beyond

Tim Sheng

Department of Mathematics and

Center for Astrophysics, Space Physics & Engineering Research

Baylor University

http://www3.baylor.edu/~Qin_Sheng

In this talk we will discuss the following:

1. What is splitting?
2. How accurate is splitting?
3. Connections between adaptations and time scales
4. How about adaptive splitting?
5. Beyond splitting
