

Part 1: Start at the large totem pole near the camp store. Use your compass to orient (align) this map so its long sides are aligned toward magnetic north/south. Use your map to determine the compass direction to Control Point 1. Now go find Control Point 1. Continue in numerical order to Control Points 2, 3, 4, and back to the totem pole. Check the box for each of the control points when you find them.

- Totem Pole Control Point 1 Control Point 2 Control Point 3 Control Point 4 Totem Pole

Part 2. To find Control Points 5, 6, 7, 8 and 9 (not shown on the map), you must use your compass and follow these instructions. Note that due north is azimuth 0° (or 360°), east is 90°, south is 180°, and west is 270°. Stand with your back against the large totem pole facing south, then...

- walk approximately 135 feet toward ~218° to find Control Point 5 I found Control Point 5
- walk approximately 55 feet toward ~270° to find Control Point 6 I found Control Point 6
- walk approximately 305 feet toward ~134° to find Control Point 7 I found Control Point 7
- walk approximately 250 feet toward ~217° to find Control Point 8 I found Control Point 8
- walk approximately 130 feet toward ~230° to find Control Point 9 I found Control Point 9

Continue to Control Point 10 along the dirt road, as shown on the map. I found Control Point 10

Part 3. Return to the totem pole and measure its height. The totem pole is _____ feet tall. Measure the height of the middle flag pole, just south of the dining hall. The flag pole is _____ feet tall.
